

# KEL-CRETE INDUSTRIES, INC.

**KEL-CRETE PREMIUM LIQUID AND SUPER DRY ADMIXTURES**

**www.kel-crete.com**

COMPLETELY ENVIRONMENTALLY SAFE FOR THE 21st CENTURY

- EASY TO USE •
- CONTROLLED MIX •
- HIGHER PSI •
- LESS CHECKING •
- GREATER DENSITY •
- EASY TO PUMP •

Architects' Specified Choice

- SUPERB WORKABILITY •
- SLOW CURING •
- LESS WETTING •
- LESS SHRINKAGE •
- NO EFFLORESCENCE •
- NO LOSS OF AIR CONTENT •

- GREATER RESISTANCE TO FREEZING AND THAWING •
- LESS WATER PENETRATION •

FOR:

- PLASTER • MASONRY • CONCRETE • GROUT • STUCCO • GUNITE/SHOTCRETE •

#### Code Compliance

- Plaster: ASTM 926
- Masonry: ASTM C-270, 1072
- Concrete: ASTM C-494, 260
- ICBO-ES Report #5005
- UBC Table 24-19C
- UBC Table 24-19B

#### Environmental

Kel-Crete has been independently tested by infrared spectroscopy test and scan to establish Kel-Crete as a non-toxic, non-hazardous products.

Specified

#### Climatic Conditions

Kel-Crete has been tested to perform under all climatic conditions: wind, rain, cold, heat, salt, etc.

Rockscapes

Plaster

#### Unique Gelling Function

Allows easier pumping without loss of air content. Greatly reduces (95%+) rebound of mortar in plaster and shotcrete application. Greatly increases water retention (84-94.6%), psi values, sheer strength, bond strength, and greatly reduces shrinkage. Disallows separation which decreases hose friction, equipment cost, and material and labor costs.

#### Freeze/Thaw

Kel-Crete formulation has been job-site tested for 840 cycles without failure.

#### Support Data

Upon request a complete packet of information, testing, safety, history, etc. is available.

See Reverse Side For Additional Information. Dealer Inquiries Welcome.

# KEL-CRETE INDUSTRIES, INC.

**KEL-CRETE PREMIUM LIQUID AND SUPER DRY ADMIXTURES**

#### Limitless Applications

Kel-Crete admixtures are being used in construction projects of virtually every type around the world.

- Correctional facilities
- Low-cost housing projects
- Manufacturing facilities
- Commercial buildings
- Schools
- Hospitals
- Nursing homes
- Residential
- Government facilities
- Retaining walls
- Water/rockscapes

#### Pre-Blended Products

Kel-Crete Super Dry is now being used in proprietary, pre-blended bagged products for:

- One-coat plaster
- Finish plaster
- Concrete
- Grout
- Plaster cement
- Masonry cement
- Patch materials

Waterscapes

#### What contractors Have To Say

"As you are aware of, our company was introduced to Kel-Crete admixture as specified on an OSA project. I must tell you that we tried the so-called premium cements and another admixture that looked like Kel-Crete. With limited success now we can state without reservation that our company has joined others as true believers in Kel-Crete."

Marshall Stucco, Inc.

"We could not have faith in that 2 oz. of Kel-Crete Liquid or 1 oz. of Kel-Crete Dry per sack mix would do all that your company claimed. As you know, we are now using Kel-Crete in our Florida, Mexico, Connecticut, Puerto Rico, etc. projects."

Burkett Stucco, Inc.

"We recently used Kel-Crete with pneumatically applied shotcrete on the Maxim Corp. project. We still cannot believe the fantastic results."

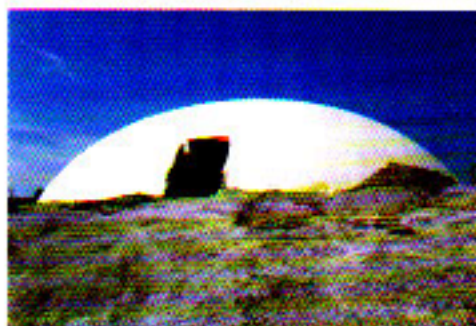

My family has been in construction since 1947 and we can truthfully say that we have never seen any product work like Kel-Crete.

The structural engineer and I had extreme reservations and wanted to stay with old industry practices, but we are so glad that we followed your advice.

**Unequaled research and quality control makes Kel-Crete a one-of-a-kind admixture.**

#### Other Uses

- Manufactured products such as:
- Concrete block
- Concrete pipe
- Roof tile
- Ornamental concrete
- Curbs & pavers

Concrete Domes

#### Appearance & Performance

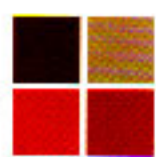

Although other products have tried to look like Kel-Crete, no other product can supply 33+ years of documented history.

Shotcrete

#### Additional Benefits

- Resistance to:
- Water penetration
- Radon
- Corrosion
- Scaling
- Spalling
- Efflorescence
